

28 Days With Matthew

The book selection for March is *28 Days with Matthew*, a simple devotional that leads the reader through the Gospel of Matthew chapter-by-chapter for Maasai-speaking believers. LATM partner Don Tingle wrote, "Maasai believers need material in their language that helps them understand the Gospel more clearly, showing them what its message means for them as followers of Christ."

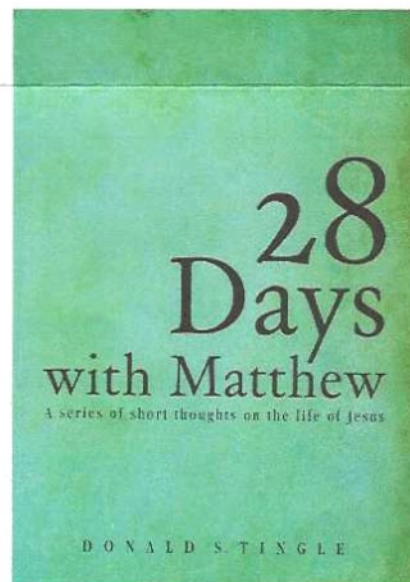

Don serves as the Director of KCITI College in Nairobi, Kenya. Nineteen new preacher-training students began at the college in January, coming from various tribal groups, mainly from rural areas. These preachers will learn to preach and lead congregations. They will also learn a vocational skill, such as farming or auto mechanics, as they will each go out as self-supporting church planters. Maasai church leaders will use this month's book with those seeking to grow in faith through God's Word.

Karl Halverson and a Maasai believer last autumn.
