# What does that symbol mean? ↗

Though our work varies from place to place and project to project, we have found that a handful of items are consistently used and urgently needed. We want to highlight our **Top 10 Most Used Items** from the Gift Catalog. As you look through the following pages, you will see a heart symbol next to each Top 10 item. While all of the items in the Gift Catalog are important and necessary for our work, these 10 items are especially useful. We encourage you to consider making a special gift towards these items to ensure IDES has the resources we need for quick and effective response around the world!

Find the full order form for this year's catalog attached at the end of this document.

## DISASTER RESPONSE

## DISCIPLE-MAKING

## DEVELOPMENT

# Introducing: Care Containers

Upon the successful completion of our Global Impact Center, IDES is expanding its GAP program to encompass more than just food packs. In November 2025, we will collaborate with the International Conference On Missions (ICOM) to fill a 40-foot container with essential supplies destined for our strategic churches and partners in Ukraine. The container will be stocked with medical supplies, hygiene items, flashlights, bedding, blankets, pillows, towels, winter coats, jackets, and shoes.

GAP stands for God Always Provides. IDES' vision has always been to go beyond our food packs to address other needs that countries around the world face in times of crisis. But the space at our present facilities limited us in what we could do. Now with the addition of our Global Impact Center, IDES can move forward with addressing the needs of our mission partners during vulnerable times, which will include CARE Containers. These containers will allow us to expand our outreach across borders to share both Help and Hope in Jesus.

## PHASE 2:

Our Expanding Help and Hope Campaign is an ongoing initiative dedicated to securing the necessary funds for our next building phase. This crucial development will encompass the construction of new administrative offices and significantly expand facilities designed to broaden the reach and impact of our ministry. The expanded space will allow us to:

### **Increase our Capacity:**

With larger, more efficient offices, our team will be better equipped to manage current operations and strategically plan for future growth.

### **Enhance Program Delivery:**

Dedicated new spaces will enable us to launch new programs and scale existing ones, reaching more individuals and communities in need.

### **Foster Collaboration:**

Improved facilities will provide an environment conducive to greater collaboration among staff, volunteers, and partner organizations, amplifying our collective efforts.

### **Offer More Services:**

The additional square footage will open doors for offering a wider array of services and resources, directly addressing critical needs within the communities and countries we serve.

*Through these expansions, we aim to significantly deepen our ministry's impact, bringing Help and Hope to an ever-increasing number of people. Your support for the Expanding Help and Hope Campaign is vital in making this vision a reality.*

# DISASTER RESPONSE

## Making an Impact in Myanmar

A powerful 7.7-magnitude earthquake struck central Myanmar (Burma), near Sagaing, on March 28, 2025. Several strong earthquakes followed, as well as multiple aftershocks. The earthquake directly killed up to 5,352 people in Myanmar and 103 in Thailand. IDES immediately joined with several of our mission partners to provide emergency aid. One project provided clean water, food, tarps for temporary shelter, and other necessities for the residents in the Sagaing and Mandalay areas. This outreach provided for 10,000 people. Another 1,000 people received Care Kits that included food, tarps, tents, sleeping mats, mosquito nets, cooking stoves, soap, and building materials. These were purchased and distributed for a few families.

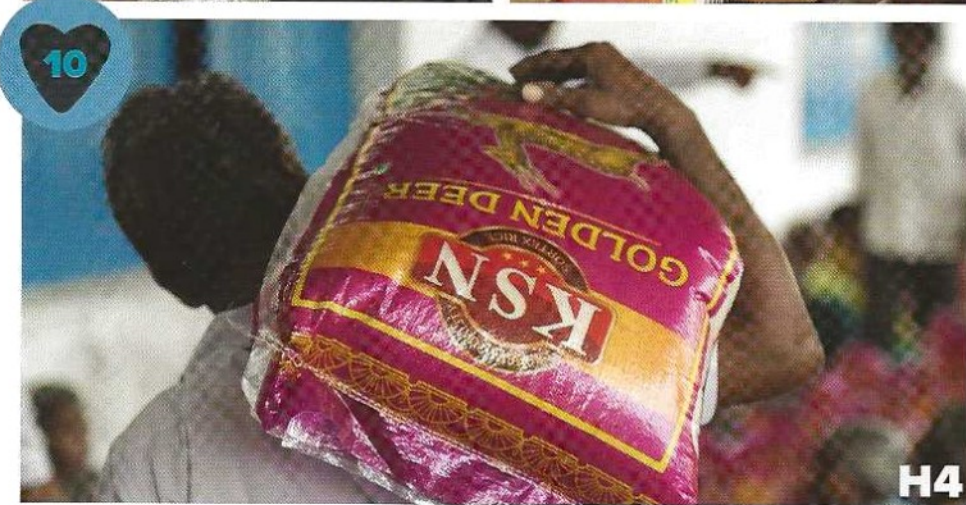

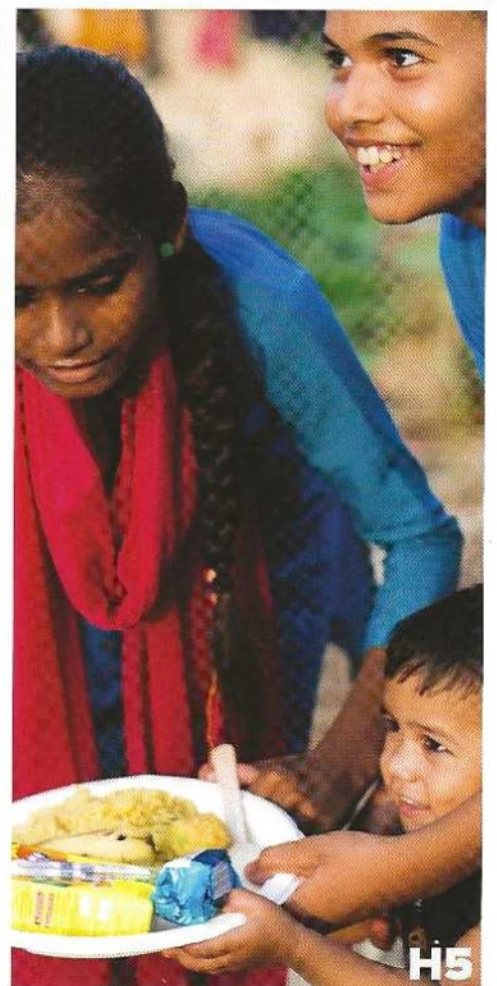

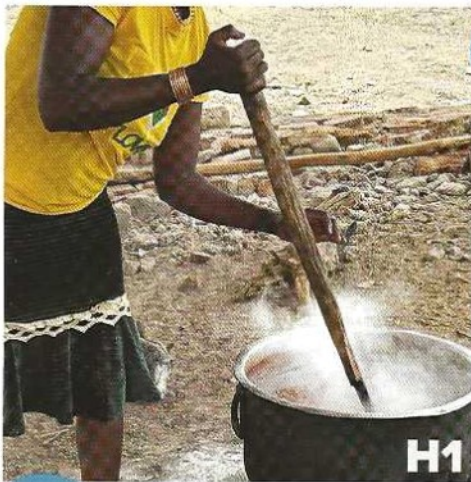

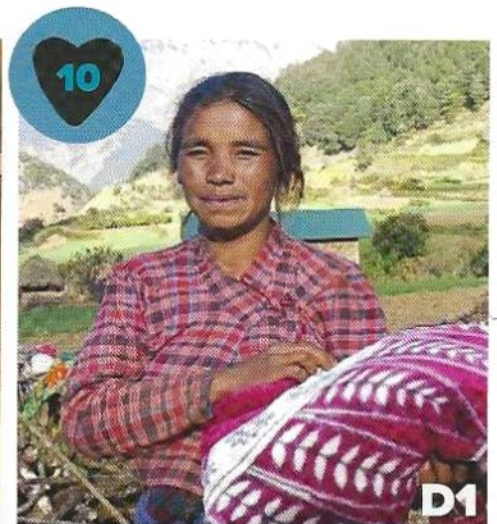

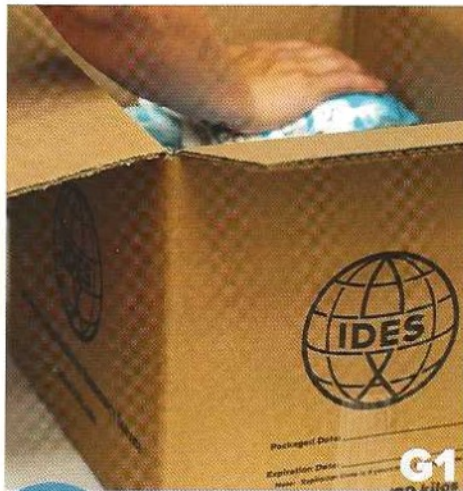

The earthquake impacted a region in central Myanmar traditionally inhabited predominantly by people of the Buddhist religion, although both Christians and non-Christians suffered substantially. The project allowed our mission partners to get into the Buddhist community that would otherwise never have welcomed Christians.

Long-lasting relationships have been forged, and people who might never have met a Christian before this project have now had an opportunity to receive the kindness and compassion of Christ and hear the Good News of Jesus. The spiritual needs of the people were met through encouragement and showing compassion, but also through the sharing and preaching of God's Word and by prayer with and for the people and communities. Two families have accepted the Lord and joined the local church in Sagaing. Remarkably, 70 additional adults have started coming to church every Sunday because they believe that God answered their own prayers after the earthquake by bringing our team to provide free water and food to their families.

### 5 months after the earthquake, with a few projects still ongoing, IDES has:

- Served 62,000+ people
- Provided 165,000+ meals
- Repaired/rebuilt 47 homes
- Repaired/rebuilt 5 churches
- Baptized 221 people

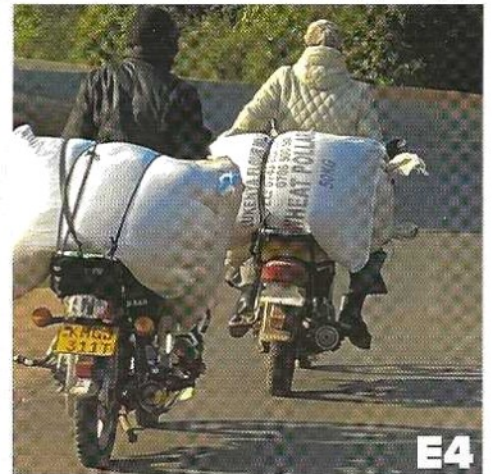

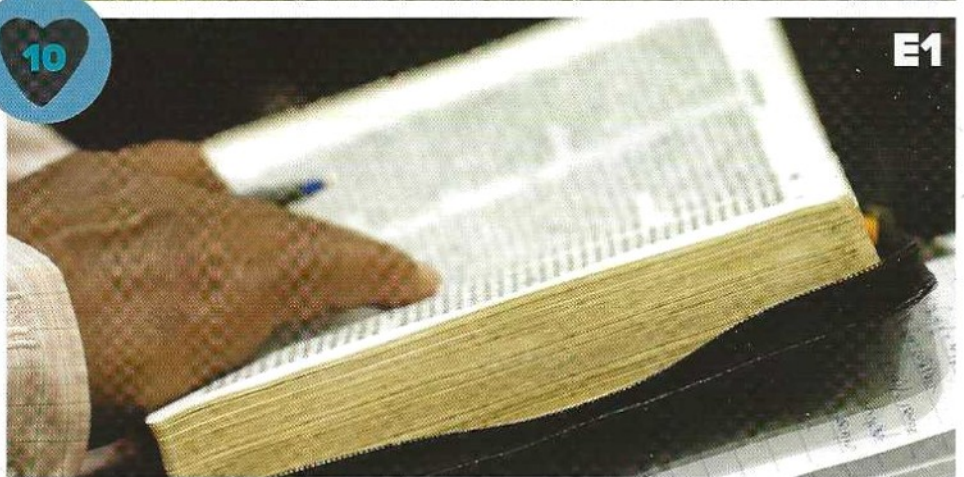

**Your gift helps us show the love of Christ to those facing all kinds of disasters worldwide.**

- H3:** Corn/Cornmeal ..... \$75
- G1:** Box of GAP Meals (288 servings) ..... \$72
- D1:** Blanket/Bedding ..... \$10
- H1:** Cooking Pot..... \$15
- H6:** Cooking Oil..... \$10
- H4:** Rice (100 lbs.) ..... \$40
- H5:** Family/Single Portion of Staple Foods.....\$25/\$5

**Your gift helps us introduce more people to the transforming power of the gospel.**

- E7:** Leadership Training/Teaching Materials ..... \$50
- E6:** Athletic Outreach Equipment ..... \$15
- E1:** Bible/New Testament ..... \$20/10
- E4:** Motorbike for Evangelists/Portion ..... \$1,000/\$100
- E8:** Legacy Church..... \$15K/\$1,500/\$150

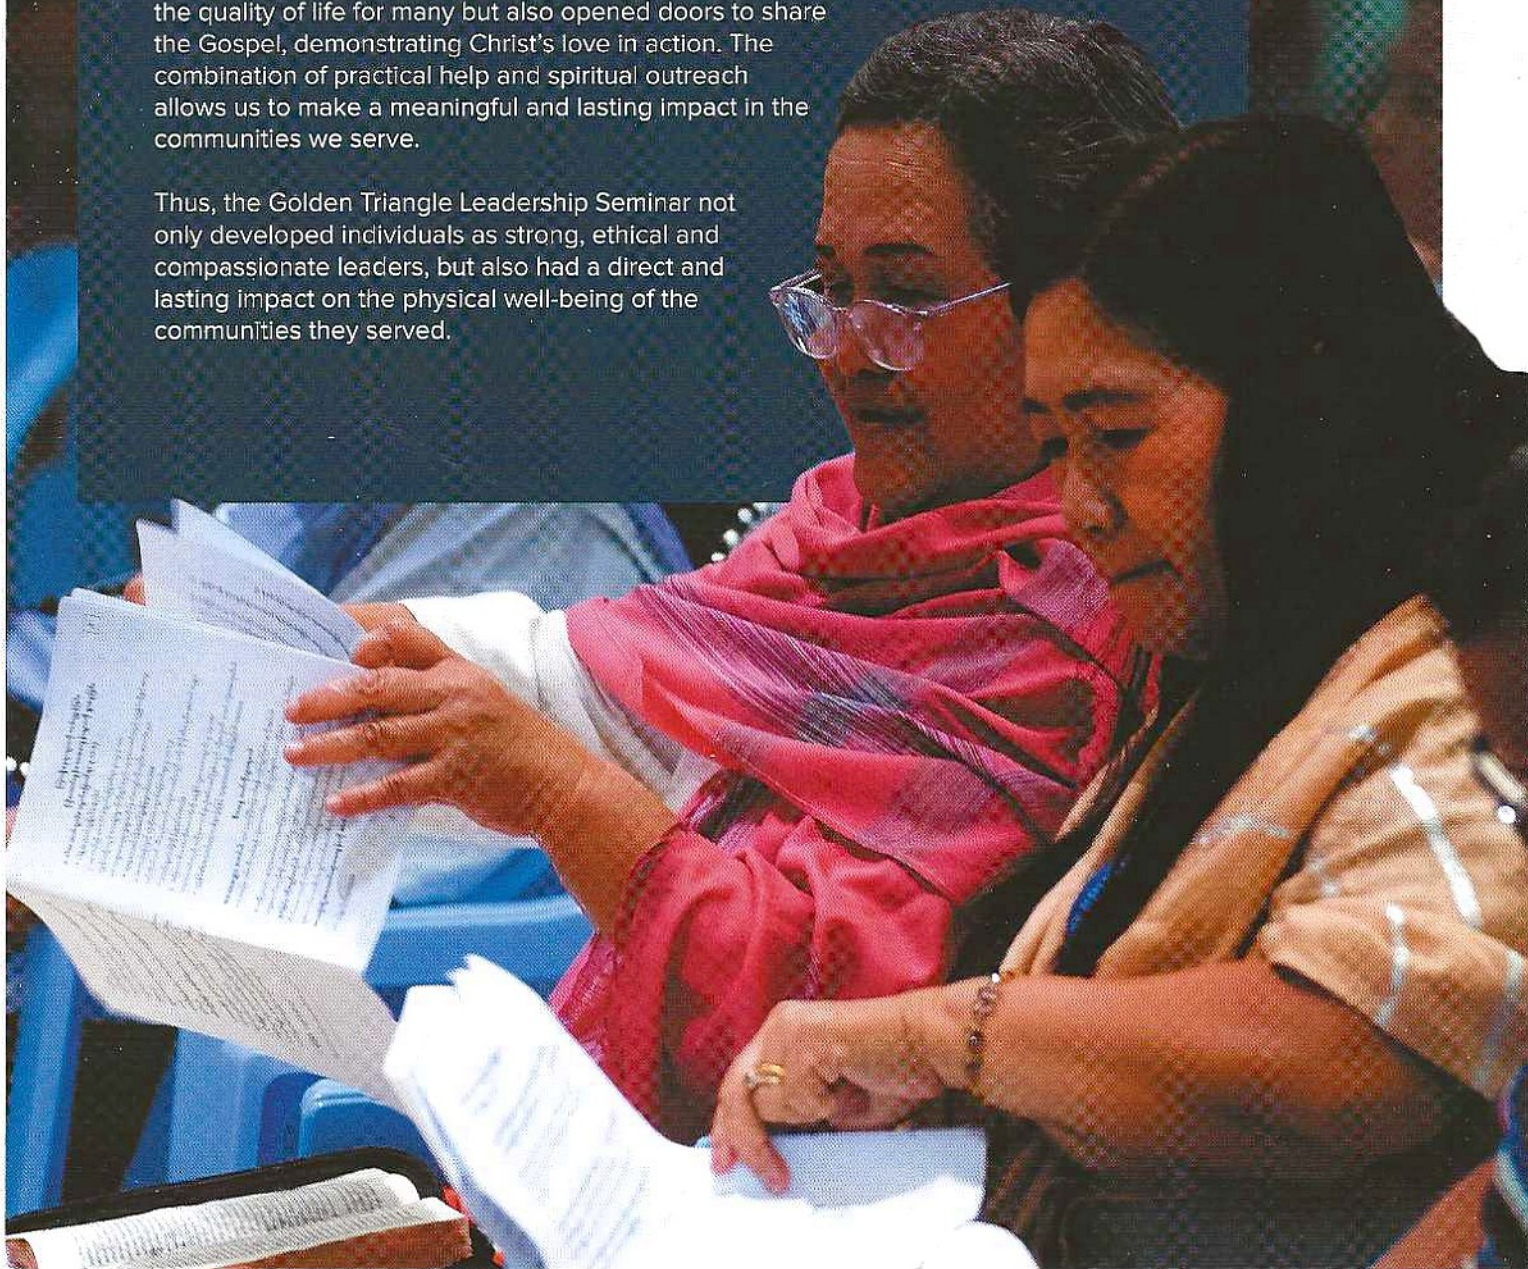

# DISCIPLE-MAKING

## Changing Lives in Thailand

IDES has had the privilege of taking the leadership role in providing Disciple-Making training over the past few years at the Golden Triangle Leadership Seminar in Thailand. Mae Sai is the city where we conduct the seminar that is located at the border of Thailand and Myanmar, in the northernmost of Thailand. The seminar date was February 3-6, 2025 with 320 in attendance. Most of the attendees were Christian leaders, ministers, evangelists, Bible school teachers, Bible students, Sunday school teachers and youth who are interested in learning God's words. The program includes biblical teaching, prayers, praise and worship, testimonial, encouragement, men's and women's group Bible studies, and youth groups. Through its outreach, discipleship and service components, it is making a lasting impact in spreading the Gospel and transforming lives.

One element that helps with the Disciple-Making movement is the provision of Medical Kits to all attendees. Each participant of the seminar was equipped with essential knowledge and practical skills to effectively use medical kits in emergency and routine healthcare situations. By meeting these physical needs, the project not only improved the quality of life for many but also opened doors to share the Gospel, demonstrating Christ's love in action. The combination of practical help and spiritual outreach allows us to make a meaningful and lasting impact in the communities we serve.

Thus, the Golden Triangle Leadership Seminar not only developed individuals as strong, ethical and compassionate leaders, but also had a direct and lasting impact on the physical well-being of the communities they served.

# DEVELOPMENT

## Building Up Communities in Haiti

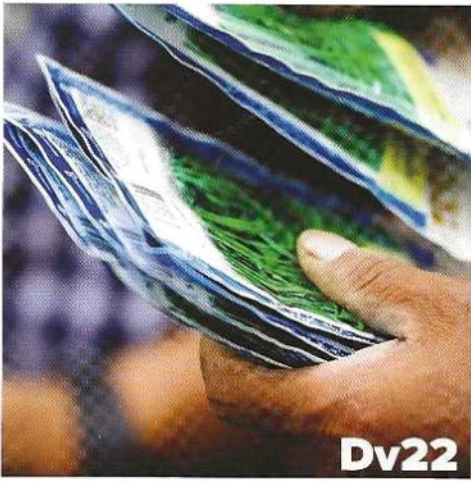

IDES has incredible partners in Haiti that continue to make an impact on the lives of those who live in uncertain times. One such partner is dedicated to transforming the lives of impoverished Haitian families through a holistic approach that emphasizes economic, physical, and spiritual development. They work with smallholder farmers, empowering families to escape extreme poverty while ensuring that 8,000 children receive daily nutrition through the egg-a-day program.

The partnership has significantly advanced sustainable agriculture and nutrition initiatives in Haiti. We were able to replenish their poultry needs, which is essential for the Egg-a-Day program—a key initiative that provides 8,000 eggs daily to schoolchildren.

This project has been a powerful tool for sharing both physical nourishment and the hope of the Gospel. The Egg-a-Day program strengthens the mission partners' outreach in schools, where students receive daily eggs, hear the Gospel, and engage in prayer and discipleship. Local ministers continue mentoring farmers, helping them grow in faith as they steward their resources.

Through this program, families not only gain economic stability but also find spiritual encouragement. Farmers recognize that God is their provider, as they see tangible results of faith, hard work, and community support.

# How can sewing machines save lives?

For many women in developing countries, they rely on their husband to provide for the household. If the man of the house gets sick, dies, or leaves the family, the woman is left to pick up the pieces with very little status in the community to find decent work.

This is where sewing machines step in. IDES is honored to have worked with many partners around the world to offer both training in sewing and sewing machines.

For many women, this is a fresh start.

In Africa, Annie was a widow left to provide for her family. At 61, she had no training to get a job. She got the opportunity to take sewing classes through an IDES partner and graduated with training and a sewing machine. She can now run a micro business and sell her goods. Not only has she been able to provide better for her family, but she has gained respect and honor in the community.

IDES has provided machines and training in Malawi, Nepal, Tanzania, India, and other countries throughout the years. From ex-prisoners to widows, women from all backgrounds have gotten second chances at learning a trade and running micro businesses to provide for themselves and their families.

Through these sewing machines, God meets these women in their vulnerable state. Not only can they provide for their families better, but they have a respectable status in the community.

Sewing machines for women, as described, can be purchased from our order form under "Development items." - **Dv10** or on the web at [ides.org/2026-gift-catalog](https://www.ides.org/2026-gift-catalog).
