WILL YOU HELP EXTEND THE MISSION

SCIENCE and FAITH
+ Connect

This year, we celebrated the groundbreaking of the Center for the Sciences, a space designed to help students see God's fingerprints in every detail of creation. Here, students will study biology, chemistry, nursing, and other sciences not just to build skills for careers, but to answer a deeper calling—to bring healing and hope in the name of Christ. Your generosity fuels this vision. You empower students to engage in cutting-edge science while staying rooted in biblical faith, preparing them to serve in hospitals, labs, churches, classrooms, and mission fields around the world.

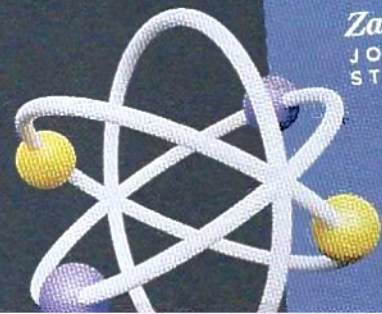

Every gift, every prayer, every word of encouragement advances the mission.

I am **on track** to graduate with my bachelor's degree, and possibly a master's, **completely debt-free!** With your prayerful and financial investment, I intend to further my education while also growing to love others as I have been **loved by you.**

EXTENDING THE MISSION. EXPANDING THE IMPACT.

For more than 130 years, Johnson University has been a community where students deepen their faith, sharpen their minds, and prepare to live out the gospel in every corner of the world. Together, we carry forward the mission that defines who we are.

This mission is more than words on a page. It's a calling that shapes every classroom, every lab experiment, every worship service, and every mission trip. And it's only possible because of faithful partners like you.

Johnson University **educates and develops** students who advance the worldwide mission of Christ through their lives, ministries, and careers.
