Harvest of Talents

Miriam lives in a village in Kenya where there has been a terrible drought. Due to hunger she had fainted and her mother was found crying over her. Despite her pleas and search for help, the whole family had been without food for 5 days. Through our partner's Harvest program, they were given a meal and received food to take back home with them. Since then, Miriam has been attending school where she learned to read and write, and her parents accepted Christ as their personal Savior and are faithful members of the church. **Pray for the family to continue to be faithful serving God.**
