Dear Pine Lake Christian Church

We have been asked many times, "Is IDES working in...". If we happen to say no, they always want to know why, since they see a huge need in that area. We then explain to them that IDES is not just a humanitarian organization, but that we are here to spread the Gospel! We only work in areas where God can get the glory. We work through churches or missionaries that are already established in the area of need. By working through them, those who are suffering receive free help to improve their life, but even more importantly, they learn that the help came from God, who loves them and can give them **eternal** life.

This map shows the places where IDES has worked since our beginning in 1973. The gray places are the only countries we have not yet worked.

Think of what it took to color this map. Only God could put together the network to make this happen. It took the right churches, their leaders and donors, missionaries and their leaders and donors, and people telling other people about IDES. It also took donors like you. God is working all around the world to help those in need and we are all a part of it!

- **"Alone we can do so little; together we can do so much." – Helen Keller.**

Thank you for being a part of the network,

*Rita S. Camden*

# PRAYING

## FOR OUR PARTNERS

In the U.S. and Abroad March 2026

## UKRAINE

DR

Kyiv has been dealing with a very difficult winter. On top of cold weather, drone strikes from Russia have knocked out power in the community. IDES is helping a partner provide blankets, power banks, and solar panels. Please pray for the safety and well being of the people facing harsh conditions.

DR

## MISSISSIPPI

Winter Storm Fern brought much ice to numerous states across the deep south. IDES was able to partner with churches to help the community of Corinth, MS clean up following the storm. Please pray for the relief efforts and the people who are recovering from the ice storm.

## JAMAICA

DR

As Jamaica continues to recover from Hurricane Melissa from 2025, IDES is helping a partner repair roof damage to continued restoration of the island as we move on to the rebuild phase. Pray for wisdom and faith for the people in Jamaica as their recovery continues.
